

### Online Payments Improvements Coming Soon

- You will no longer be required to register to make one-time e-check payments.
- If you choose to register, you can set up recurring payments as well as view payment history and save property and payment information for one or multiple properties.
- You can set recurring payments using your own expiration date or leave open ended until you cancel.
- Your current login information and the expiration date you chose for your recurring payments will stay the same.

### Next Steps:

- **Verify your ID/account number and association name by reviewing a current coupon or statement.** You may find that the information you entered in the past will no longer be accepted based on the information your management company provides to us.
- Look for an email notification containing more details and a launch date.
